

Royal Surrey Midwife Continuity of Carer

Women of Farnham, Aldershot and surrounding areas have the option to choose midwife continuity of carer provided by the Royal Surrey NHS Foundation Trust.

You will be allocated a buddy pair of midwives who provide pregnancy, birth and postnatal care. Whilst one midwife works in the community clinic, the other works at the birthing suite. They swap every 6 weeks so you get to know your midwives really well. They provide you with personalised care at all stages of pregnancy, birth and beyond.

You will attend antenatal and postnatal appointments at the **Health & Wellbeing Suite, Farnham Memorial Hall**. Clinics are running on designated days across the week. Some appointments will be via the phone to reduce footfall at the clinic to protect you, your baby and your midwives during the pandemic.

Find and follow **@Surreyorchardsmidwives** for details on midwife continuity of carer and your local Royal Surrey midwifery team.

Register for maternity care with Surrey Orchards midwives via the direct referral form and a midwife will call you to arrange your booking appointment. <https://bit.ly/3fwTA7s>
